GOAL

Quick-start travel briefing

Use this page first. It shows how to get value from the PDF in under 10 minutes.

Your documents are your trip permission system.

Use this organizer to build a clean travel folder for passport, visa, tickets, accommodation proof, insurance, medicine letters, emergency contacts, and offline backups.

1 Collect originals

Check passport, ID, visas, residence permits, tickets, insurance, and bookings.

2 Create proof folder

Group documents by airport, immigration, hotel, health, and emergency needs.

3 Make backups

Save offline, cloud, email, and one printed copy where useful.

4 Keep access

Use one phone folder and one small physical folder for high-risk documents.

Official reminder

Passport, visa, transit, health, medicine, airline baggage, payment, and local safety rules can change. Always verify important details with official government, airline, embassy, airport, and health sources before travel.

Core document inventory

Build this before you think the trip is ready.

Document	Why it matters	Backup action
Passport / ID	Needed for flights, border, hotel, SIM, and emergency proof.	Save photo and keep original secure.

Flight tickets	Needed for check-in and route proof.	Save airline app and PDF version.
Accommodation proof	May be needed at immigration or late check-in.	Save address, phone, and booking code.
Insurance policy	Important for medical or disruption problems.	Save policy number and emergency contact.

Name and date consistency check

Tiny mistakes can create big problems.

Field	Check carefully	Why
Full name	Ticket, passport, visa, hotel, insurance.	Mismatch can cause boarding or claim issues.
Passport number	Visa, flight, insurance, booking forms.	Wrong number can delay checks.
Dates	Flight, hotel, visa validity, insurance period.	One wrong date can leave a gap.
Airport code	Departure, arrival, connection, city airport.	Some cities have multiple airports.
Contact number	Hotel, transfer, insurance, emergency contact.	Needed if plans change.
Address	First-night stay and local contact.	Useful for immigration and taxi.

Consistency rule: do not only check that a document exists. Check that the details match.
